

The **Hybrid** is a dual-airway interface that delivers air to both the nose and the mouth. With its ultra compact design, the Hybrid is half the size of traditional Full Face Masks. The Hybrid contains all of the components required to properly size the patient, eliminating the hassle of opening multiple products to get the right fit.

Product Features

- Delivers air to **both the nose and mouth** without the typical discomforts of Full Face Masks, such as nasal bridge sores, air leaks near the eyes, and claustrophobic feelings
- Ultra compact design offers clear line of sight with no forehead contact
- Double membrane cushion optimizes sealing and comfort
- Built-in chin flap gently supports the chin, eliminating the need for a chin strap
- Nasal pillows can be adjusted to either a “TALL” or “SHORT” position to allow for a further customized fit
- Comes in an All Sizes Kit (which includes 3 Pillows sizes and 3 Cushion sizes), where all 3 cushion sizes can fit the single mask shell
